

# Instantized EAA

Essential Amino Acids	Challenges	INNOBIO Instantized EAA
L-leucine	<ul style="list-style-type: none"> <li>Poor flow characteristics</li> <li>Poor dispersion</li> <li>Low solubility</li> </ul>	<ol style="list-style-type: none"> <li>Quick dispersion and solubility</li> <li>Unpleasant odor masking</li> <li>Better stability</li> </ol>
L-iso-leucine	<ul style="list-style-type: none"> <li>Poor flow characteristics</li> </ul>	
L-valine	<ul style="list-style-type: none"> <li>Poor dispersion</li> </ul>	
L-lysine		
L-methionine	<ul style="list-style-type: none"> <li>Unpleasant odor</li> </ul>	
L-phenylalanine		
L-threonine	<ul style="list-style-type: none"> <li>Low solubility</li> </ul>	
L-tryptophan	<ul style="list-style-type: none"> <li>Low solubility</li> </ul>
